Dr. G. D. Pol Foundation's Y.M.T. Dental college and hospital mainly focus on academics, but equal importance is given to extra-mural activities. The institution truly believes that all work and no play make Jack a dull boy. Thereby we conduct extramural activities i.e. indoor and outdoor sports activities, cultural events, etc. that facilitates building and sustenance of innate talent/aptitude of individual students through these activities which are conducted by students, cultural team and various departments. The events comprise of both staff and students which ensures ample participation in extracurricular activities held regularly in our college. All the events are well supported and conducted with the help of cultural committee comprising of staff members and students. Apart from all the events, the student are also encouraged to participate in the national or state academic / sports or cultural fest and to present scientific papers and posters. Also, innate talents like singing, mimicry were identified among students and were encouraged to perform in the campus. Reading club in which active reading sessions are held every week, where a particular book or novel is read up to certain sections and then students share their views on the same. This encourages active discussion and the habit of reading in students. Leisure sports like table tennis, carrom, chess, etc are played during free hours in common room and outdoor games sessions like basketball, volleyball, and football are conducted encouraging sportsmanship and enthusiasm in students besides keeping them physically fit. There's lot of creativity based competitions and social activities like tree plantation drives are carried out during this period of cultural meet. At Dr. G. D. Pol Foundation's Y.M.T. Dental college and hospital, the development of a well-rounded individual is the principal goal of extracurricular activities. These activities afford positive impact on student's emotional, intellectual, social, and inter-personal development. By working together with other individuals, students learn to negotiate, communicate, manage conflict, and lead. During the annual college fest competitions like poster making, soap carving, best out of waste, debate, rangoli making, master chef, sports marathon,

HEALTH CAMP, TALOJA MIDC, NAVI MUMBAI

The Department of Oral and Maxillofacial Pathology and Microbiology conducted a camp offering free oral health checkup and blood collection event in collaboration with Dr. LalPath Labs at Sigma Industries, Talaja MIDC.

Aiming to raise awareness and assess employees' dental health, our team provided comprehensive oral examinations and organized a blood collection drive for health screenings, promoting overall well-being among employees.
