

Executive Summary

The Department of Oral and Maxillofacial Surgery (OMFS) at YMT Dental College and Hospital, in collaboration with the Charles Institute, successfully conducted the Basic Life Support Workshop 2023 on the 16th and 17th of October. The workshop was aimed at providing essential life-saving skills to interns, postgraduates, and faculty members of YMTDC.

The workshop spanned two days, with a comprehensive agenda that included lectures, hands-on training, MCQ-based examination and practical viva. Key features of the event were as follows:

Interactive Sessions: Participants engaged in practical, hands-on exercises that covered Basic Life Support (BLS) techniques. These sessions enabled attendees to gain practical experience in a controlled setting.

Expert Instructors: The workshop was conducted by experienced and certified BLS instructors, ensuring high-quality AHA certified training.

Comprehensive Curriculum: Topics covered included lectures and demonstration of High Quality Cardiopulmonary Resuscitation (CPR) for adults, infants and children on mannequins, use of Automated External Defibrillator (AED), and management of choking.

Certification: Attendees who successfully completed the workshop and passed the examination will receive AHA certified BLS certification.

The workshop witnessed active participation from a diverse group of attendees, including interns, postgraduates, and faculty members.

techniques. The lectures were focused more on clinical aspects to get budding doctors acquainted with the intricacies of clinical practice.

The first session was conducted by Dr. Vibha Hegde sharing valuable insights on case selection and treatment planning. Next session was held by Dr. Ushaina Fanibunda discussing the protocols and recent advances in irrigation. Dr. Satish Sane then spoke on obturation techniques in endodontics. Demonstration and hands-on using rotary files followed the scientific sessions. The workshop received overwhelming response and witnessed active participation from the students. The programme widely appreciated with positive feedback.
