VOTERS AWARENESS PROGRAM

DATE- 6th March 2024

Voting is an integral part of democracy, and it is necessary for people to have a voice. By voting, we can create change and make a difference in our community. In view of upcoming elections, the NSS Unit organized “Voter awareness program (मतदाता जागरूकता कार्यक्रम)” at Yerala dental college and hospital on 06.03.24. The main objective of this program is to enlighten, enable and empower every citizen to register as a voter and cast his/her vote at upcoming election in an informed and ethical manner. In the beginning, Dr. Thompson Dcruz motivated the NSS volunteers and discussed the importance of voting. He inspired the volunteers to make a human chain. It is a form of demonstration in which people link arms or hands to show political solidarity and make other people aware about voting. Eventually the volunteers were administered with the voter’s oath. Afterwards, the volunteers created awareness about voting by holding banners and raising different slogans such as सारे काम छोड़ दो सबसे पहले वोट दो, वोट डालने जाना है अपना फर्ज निभाना है, जन जन की यही पुकार वोट डालो अबकी बार in the area. All the students called upon the public to vote with full enthusiasm on 06.03.24 and the public showed a positive attitude towards it.

The voting awareness program provides information about voting and how to be a responsible voter. A lot of people want to vote, but many are not aware of its need and how to cast it. This is where voting awareness comes into play. The idea of voting awareness is to help people understand the importance of voting. Voting is an important way for voters to control their government. It is a method for citizens to express what they want from their leaders by raising awareness about voting. This will lead to better governance and what everyone wants – a democracy that is free, fair and representative.
