## INVISALIGN UNIVERSITY PROGRAM

2019

### SUMMARY

Invisalign University Program was conducted at Dr. G D Pol Foundations YMT Dental College and Hospital by Dr. Warasiri Pitakonanda to introduce and orient the students to Invisalign Treatment protocols. She guided the students with the cases and treatment planning regarding Invisalign and displayed few of her best treated cases. The session was made interactive through a question-and-answer round at the end of the lecture and participants were given feedback forms at the end of the lecture.

YMTDCH regards various cross-cutting issues as key areas in which students require initiation to enabling them to transform into professionals but also as socially responsible and morally ethical human beings in the society. In order to achieve this, YMTDCH conducts numerous events specific to issues pertaining but not limited to the above.

### **Gender equity:**

- Awareness programs and lectures by eminent speakers are arranged to students to make them understand the importance of gender equity and respect of all people in their workplace.
- This is done to ensure that they not only understand the way to behave, interact and respect their superiors, contemporaries and juniors but to carry forward the same to their future professional and personal lives.

### **Environment and Sustainability:**

- The importance of climate change, greenery and pollution control cannot be overstated in the current scenario.
- At YMTDCH, we ensure a green environment in the campus within the vast 5.0038 acre campus. Our campus also houses a waste management facility, Solar panel-lights as alternative source of energy.
- Students are taken on field visits to these establishments to learn the processes involved as part of their posting in the Department of Public Health Dentistry.
- World environment day is also celebrated by planting trees by students.

### Human Values:

- YMTDCH employ a high level of emphasis on imparting human values to students.
- It forms one of the most important parameters of development of the students in transforming students into global citizens. Programs inculcating sense of purpose towards social responsibilities such as “No tobacco Day rallies”, “Blood Donation and its importance”, and large-scale screening camps as part of World Oral Health Day are organized.

### Health Determinants and Right to Health:

- The 4 principles for “right to health” are non-discrimination, physical economic and information accessibility.
- YMTDCH prides itself in being a totally non-discriminative hospital where we don't have either caste or religion in our out-patient card/database.
- We also ensure that geriatric people, special children and economically challenged individuals/families are provided access to world class dental treatment.

### Professional Ethics

- Inculcation of professional ethics is a key area in the development of YMTDCH students from young adults to accountable dental professionals.
- Training on the importance of professional ethics including soft skills, speaking to patients, oral health education and its importance and communication in front of an audience are provided to our students on a regular basis.
- As a responsible member in Bioethics YMTDCH organizes seminars annually to familiarise students and faculties on issues on professionalism and bioethics.
- YMTDCH best practices also includes the thrifty innovation protocol where we ensure the treatment at highest quality is offered in the quickest time frame.
