Department of Public Health Dentistry

Annual Report of the outreach activities for the year 2022

The various outreach activities conducted in rural & urban areas in the year 2022 included activities for the holistic development of students/interns and bringing forth to them, the lifestyle of the rural people and how their valuable services can be beneficial at grass root level. The rationale behind conducting outreach activities is to sensitize our students/interns about the importance of reaching out to the masses & rendering quality dental care to them along with raising oral & general health awareness amongst the masses who're deprived of it. Various health education aids like AV, posters, demonstrations on models, health talks are used at times by our interns to better the understanding of the masses about oral health. As we made attempts to bounce back to the new normal after the world-changing pandemic, we achieved a whopping total of 294 camps serving 19077 patients and providing outreach exposure to 1428 interns in the year 2022 by the department of Public Health Dentistry. Camps were organized in association with offices, societies, schools, colleges, clubs, NGOs, etc.
