## **Objective:**

Sensitization of undergraduates, postgraduates, and teaching faculty towards various aspects of Intellectual Property in Healthcare and associated rights (IPR) such as patents, designs, copyrights, and trademarks

## **Short Term Goals:**

- To produce a cadre of academicians and clinicians who are adept to the technicalities, and importance of intellectual property in healthcare.
- Training of existing task force of undergraduates, postgraduates, and staff in the institute in matters related to Intellectual Property Rights
- Conduct workshops, seminars and CDEs in this domain
- Act as a repository for professional technical advice to external parties, enhancing collaborations
- Establish an Innovation Club for the facilitation of periodic activities (inter and intra-collegiate events, think tanks etc.)

## **Long-Term Goals:**

- To have a sustained repository of patents, copyrights, and trademarks
- To increase the innovations and translational research projects in the institute
- To set a base for an entrepreneurial mindset among budding innovators
- To strengthen linkages and collaborations by partnering with inter-disciplinary units, and government and private institutes.
- To establish a targeted and focused fellowship/ diploma program in intellectual property affiliated with MUHS/ other universities.
